PROFILE

Senior Brand & Product-Oriented Digital Designer with 15+ years of experience building cohesive brand frameworks across digital and physical touchpoints, operating at the intersection of brand strategy, UI/UX, and digital product development.

Strong foundation in **layout architecture** and **typographic hierarchy**, shaping clear visual narratives across editorial, digital, and multi-platform environments.

Defines product structure and user flows through **interactive wireframes** and high fidelity **prototypes**. Delivers **search-optimized websites** grounded in strong information architecture and user experience, aligning visual direction with **paid acquisition strategies** (Meta & Google Ads) to ensure continuity between campaign entry points and landing environments.

Detail-oriented and analytical, applies critical thinking and reusable design logic to enable scalable digital execution — connecting brand positioning with implementation from concept to launch. Experienced in **AI-supported workflows** and quality focused evaluation.

Identifies inconsistencies and specification gaps across digital deliverables, providing **structured feedback** that strengthens alignment and execution across **cross-functional teams**.

CORE EXPERTISE

- Brand Architecture & Identity Systems
- Layout & Typography
- Digital Experience & Website Structure (IA, User Flow)
- SEO-Structured Content Hierarchy
- Campaign Strategy, Creation & Management — Google Ads & Meta
- End-to-End WordPress Website Delivery
